ABOUT US

Creative Solutions and Innovations (CSI) Phils Inc. was established in 2011 with the aim of providing innovative, industry-changing, revolutionary, green building product that will help reshape the outlook of the Philippine Construction Industry in building materials. We are an authorized distributor of **GRM Biowood** brand composite products here in the Philippines.

We share in the mission of our mother company GRM and BioWood composite brands in making people aware in keeping our global environment greener and minimize deforestation by considering resources and energy use to manufacture such products. By using our composite wood, you are contributing to sustaining resources for today's future - a perfect interaction between ecology and efficiency. Through our products, we are committed to redefine the concept of value in construction and remodeling industries by providing smart, efficient and healthy alternatives to conventional building materials.

FEATURES AND BENEFITS OF GRM PRODUCTS

GRM products are usually over natural wood in many applications due to certain comparative advantages such as:

WEATHER RESISTANT
The ability to withstand all weather

INSECT RESISTANT
Anti-Termite

ENVIRONMENT FRIENDLY
No Hazardous

FIRE RESISTANT
Against Ignition

WATER RESISTANT
Resistant to water

LONGEVITY
Long Life

PAINTABLE
May be applied as required using water-based paint

RECYCLABLE
Can be recycled after use

Nail/SCREW FIXING
Can be fixed with screws

BIOWOOD

CSI BIOWOOD PHILIPPINES

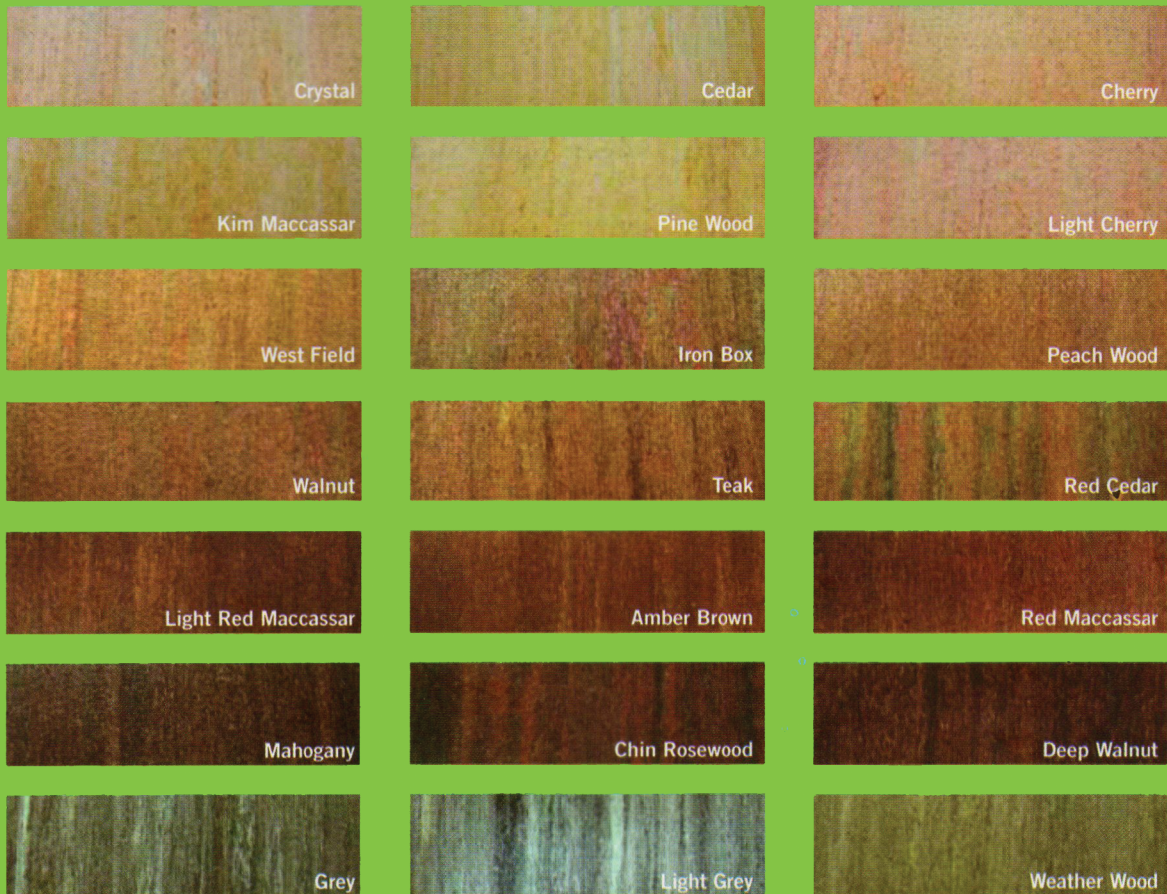

GRM Pellet is composed of wood powder from virgin spruce pine, UPVC resin and additive. The powder are mixed to a dough-like consistency and then extruded out to form GRM pellets.

GRM uses only the finest raw materials to produce our GRM pellets. With stringent quality assurance control and using modern technologies, we provide assurance that you're getting consistency with our manufacturing

TEXTURE RANGE

Realistic textures to beautify and upgrade your space to suit your needs and budget.

SURFACE FINISH APPEARANCE

5 distinct surface appearance that we are able to produce as required
